OBJECTIVE

Motivated and enthusiastic Computer Science graduate of 2026 with a strong foundation in Java, Object-Oriented Programming, data structures, and algorithms. Seeking an entry-level software development opportunity to apply coding, problem-solving, and communication skills while learning new technologies and contributing effectively to innovative software solutions.

EDUCATION

Bachelor of Engineering(Computer Science) – 8.01 CGPA

Shri. Jaykumar Rawal Institute of Technology, Dondaicha

AGRJ Junior Science College, Shendurni

HSC (Class XII)

K.S.Pawar School, Varsade Pachora

SSC (Class X)

2022-2026

Percentage– 74.70%

2021-2022

Percentage– 77.33%

2019-2020

Percentage– 85.40%

SKILLS

Programming Languages : Java (Core Java, Java 8), JavaScript

Core Concepts : Object-Oriented Programming (OOP), Data Structures, DBMS, APIs, Software Engg

Backend Technologies : Spring MVC, Spring Boot, Hibernate JPA, Spring Data JPA, MVC Architecture

Frontend Technologies : HTML5, CSS3, Tailwind CSS, React.js, Axios,

Database : SQL, PostgreSQL

Version Control System : Git, GitHub, Postman

Soft Skills : Problem-Solving, Team Collaboration, Communication Skills, Analytical Thinking

CERTIFICATION

Full Stack Java Development trainee

Net-tech India

July 2024 - Sep 2025

Thane, Maharashtra

- Assisted in developing scalable backend applications using Java and Spring Boot.
- Developed REST APIs using Spring Boot and Hibernate.
- Worked on CRUD operations, API integrations, and database connectivity.
- User-Friendly Frontend web-application with responsive layout.
- Used Git, GitHub, and Postman for version control and API testing.

PROJECTS

E-Commerce footwear App

- Developed a responsive shoe store with product filters, cart, and API integration.
- Using React.js, HTML5, CSS3, Redux, Axios, JSON Server
- Clean & user-friendly interface.

Medi-Connect Smart Patients Appointment management system

- Developed **Medi-Connect**, a full-stack healthcare appointment management system using **React, Spring Boot, and SQL**.
- Implemented **secure authentication**, appointment booking, and **WhatsApp notification** integration.
- Built **REST APIs** and a responsive UI with **React, Tailwind CSS, Spring Security, and Spring Data JPA**.

POSITIONS AND RESPONSIBILITIES

- **National Service Scheme (NSS) Volunteer** – Actively participated in a 7-day special camp, community development programs, cleanliness drives, and awareness campaigns while developing leadership and teamwork skills.
- Volunteer for college technical events

HOBBIES AND INTEREST

- Coding and Exploring New Technologies
